

## **ANS THD Town Hall Topics**

*'How to innovate an ANS Division?'*

Town hall meetings are intended to interact with the division at large and especially with the young (student) members of the Division. It is an informal setting in which there are no wrong answers and which should help the Executive Committee in determining future directions. In other words, the town hall sessions are shaping the future of the division while the executive committee meeting deal with the day-to-day operation of the division. The following topics are scheduled to be open for discussion. Please do not hesitate to join us and bring your ideas and wishes to our table.

- ANS THD is organizing Webinars. What would be topics of interest?
- What does active participation in ANS THD bring to you; experiences from 'young' members.
- The ANS THD sessions typically have the same topics each year. What sessions would you like to see appear at future ANS THD sessions?
- What kind of social events or soft skill workshops would convince you to participate in?
